

Required Dedicated Power for 1 & 2-Person Saunas:

1 & 2 Person Saunas
Require a 15 Amp
Outlet / 120V

Recommended to be
on a dedicated line.

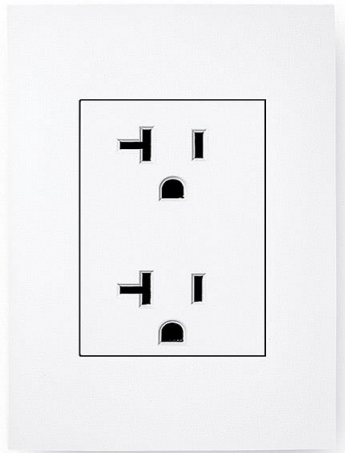

1 & 2 Person Saunas
Require a 120V
15 Amp
(Non-CAFCI/GFCI)
Breaker.

Required Dedicated Power for 3-Person and Larger Saunas:

3 Person Saunas
Require a 20 Amp
Outlet / 120V

Must be on a
dedicated line.

3 Person Saunas
Require a 120V
20 Amp
(Non-CAFCI/GFCI)
Breaker.

Please Note: Circuit Breakers do go bad over time. A circuit breaker is just a switch. And although it can be reset many times, it is possible for the connections inside to open up and effectively make the breaker bad. Once the connections are opened up, the electricity will not flow through and you'll have no power on that circuit - regardless of whether the switch is on or off.
